**FIRE REVEALS** are great to reveal famous faces, company logos and slogans.

**GLITTER REVEALS** are the perfect way to reveal award winners or VIPs.

### What are reveals? Here are two examples.

Lets say for example you want to announce an award winner. Brad can speed paint the person using clear glue. He then steps back and showers the canvas with gold glitter which sticks to the glue revealing the image of the person.

Similarly with fire - he can prepaint a logo onto the canvas before the show and cover it with fire paper. He ignites the paper during the performance which becomes a fireball on the canvas and disintegrates revealing the logo painted underneath.
